Dear Mr. Mancuso:

Because the Commission did not hold a December meeting, we circulated to the members for their comments the revised design of the replacement police booth, BM-12, at the southeast corner of the Bureau of Engraving and Printing's facility on 14th and C Streets, SW. All of the members responded and approved the design of the booth. During the Commission's meeting of 25 January 2005, the members formally confirmed their approval.

Should there be major changes made before the booth is installed, please contact the staff and we will assist you in determining if additional review is required. We look forward to the review of future items from the Bureau of Engraving and Printing.

Sincerely,

A handwritten signature in black ink, appearing to read 'F. Lindstrom', written over a horizontal line.
